

## **Success Story**

### **Mahmoud Kashghari University in Bishkek- Kyrgyz**

#### **Course: Art of project management & PMP exam preparation**

On invitation from Mahmoud Kashghari University in Bishkek, I traveled to the Kyrgyz Republic to run a course in Project Management.

The Kyrgyz Republic, the capital of which is Bishkek, is located in the eastern part of Central Asia. This country is bordered by East Turkistan Province, currently under the Chinese control, eastward; Kazakhstan northward; Uzbekistan westward and Tajikistan south-westward.

The Kyrgyz population is of Turkish origin and is estimated at 5 million, eighty percent of them are Muslims.

It was an extremely wonderful experience, where the Kyrgyz reception was extremely amiable and welcoming.

The course was attended by 23 trainees, including doctors, heads of departments and administrators from different university specializations.

I did my best to meet their expectations and serve them my expertise and knowledge in Project Management. Their response and their enthusiasm and willingness to learn new management tools were extraordinary.

At the end of the course the surprise was enormous for me as the University Chancellor followed the old Kyrgyz traditions to honor me and thank me for the effort. So, he dressed me with the Kyrgyz gown and hat, duly vesting on me the title of "Eyad Saadeh Khan".

I thank Allah, the Exalted in Might, who enabled me to serve my brothers in that remote country I, until my visit, had known nothing about, and verily thank Him for the success and for reputation as a PMP Instructor to have reached Central Asia.

**Below are snapshots that record beautiful moments from this course.**
