

Success Story **The College of Telecom & Electronics – CTE**

<http://www.cte.edu.sa>

Course: Art of Project Management & PMP Exam Preparation

The College of Telecom & Electronics (CTE) in Jeddah is one of the technical colleges that belong to the Public Institution for Technical and Vocational Training. The main objective of the College is to qualify the Saudi youth to work efficiently and effectively in one of the fields of the modern electronic technologies such as telecommunication, computer/ technical support and networks, industrial electronics, controls and others.

The course was attended by 26 trainees including Doctors, Professors, Instructors, and Administrators of the said College.

The interaction was marvelous on the part of all trainees who exhibited enthusiasm to acquire a new experience in Project Management. Attendance and commitment were very high.

For me, the course was a great chance to benefit from the expertise of the attendees with such a presence of a lot of doctors and people of considerable expertise.

Upon completion, Dr. Abdullah Ben Ali Al-Shahri, Dean of CTE, awarded me a certificate of appreciation for the distinct performance acknowledged by all of the participants.

I received many thank-you letters from the participants including this one below which I feel proud of since it comes from a highly experienced person whose.

Dear Eng. Eyad Saleh Saadeh

Thank you...thank you... thank you

I saw a lot of promising signs in you the very moment I met you, and I actually found it in you by end of the first day.

Honestly speaking, I did not have the self-confidence to take the exam, but you have literally instilled it in my mind and further strengthened it before the end of the course.

Thank you so much from the bottom of my heart, once again.

I ought to note, my dear teacher, that he who educates me in a science, is the one of to whom I shall devote my friendship, love and all respect.
